The Tournament Committee has the right to expediate play by playing on two boards to ensure timely completion of events.

Standard League Game Formats:

Standardized league results are the only accepted statistics.
All recorded player-skill ratings are achieved using the actual darts thrown. In addition, the following are standard formats for game play to calculate a player-skill rating:

- **'01:** Open In/Open Out format*, full 50 point bull
- **Cricket:** Split 50/25 point bull's eye

All games must be played with 8' foul line and 15 1/2" target face.

*Double in/Double Out games count as games played, but stats must be kept separate. Double In/Double Out games will not be used for classification. If that is all that is provided for a player they will play in the highest level for that event.

DART TOURNAMENT ELIGIBILITY & CLASSIFICATION

League & Sanction Requirement

- A. All players must be at least 18 years of age.
- B. All players must have a minimum of 96 games played in leagues for an IAMOA operator.
- C. Games must be played between January 1, 2023 and January 1, 2024 and obtained in no less than 10 separate weeks of play.
- D. All games must be played on operator owned equipment.
- E. All Doubles, Triples and Team members must meet league requirements through the same operator.
- F. All players must be sanctioned by the NDA and the IAMOA to participate in the tournament.

Classification

1. Players **must have a valid skill rating** or they will be classified at the highest level.
2. **All players must be entered with their highest known player-skill rating, from league, for the qualifying period.** This is the responsibility of the Operator. Accuracy of player abilities are dependent upon proper submission and documentation from the Operator. The highest known player-skill rating is determined by taking the highest player-skill (PPD/MPR) rating from a league season for the qualifying period of January 1, 2023—January 1, 2024 including the current league season (remember this must be a minimum of 24 games in no less than ten (10) weeks of league play in the same league season). All stats are based on darts thrown.

For example, Pete played in the following leagues for Acme Vending:

Spring 2023 starting Jan 1, 2023 ending May 15	PPD 24.50
Summer 2023 ending August 30	PPD 23.50
Fall 2023 ending December 15	PPD 25.50

The highest known player-skill rating for this player for tournament entry would be the 25.50 PPD from the Fall 2023 league. When providing player skills, the figure should be carried out two digits past the decimal.

3. **Players must have at least 24 games in a single season for the format they are entering.** All members of the team must meet this requirement. These games must be played over no less than four (4) separate weeks in a single league season and can be included in the total 96 games required for participation.

<u>Singles '01</u>	Player must have at least 24 games of '01 or play highest level.
<u>Singles Cricket/Combo</u>	Player must have at least 24 games of Cricket or play highest level.
<u>Doubles '01</u>	Both players must have at least 24 games of '01 or play highest level.
<u>Doubles Cricket</u>	Both players must have at least 24 games of Cricket or play highest level.
<u>Doubles Combo</u>	Both players must have at least 24 games of '01 or play in highest level.
<u>Team and Triples</u>	Each player must have at least 24 games of '01. If any player does not have '01 stats but does have Cricket stats, the team will be placed in the highest division.

4. Player **ability assessment may be determined by the Tournament Committee** based on known ability, performance in other tournaments and previous year's performance.
5. **Players that placed 1st, 2nd or 3rd in the previous year's tournament will be leveled one division higher than they played the previous year.** Performance of all team members will be considered and teams that do not have all of the original players may still be moved up at the discretion of the Tournament Committee.

DART TOURNAMENT ELIGIBILITY & CLASSIFICATION

Master Rating

Players with a skill rating of either a 30 PPD OR 3.4 MPR and above will be considered a Master-rated player in all events, both '01 and Cricket during the tournament.

NOTE: Open Master events have two divisions in Open Singles and Open Doubles only.

'01 Events:

- Any player with a 30 PPD or above will be considered a Master-rated player in all events.
- Master-rated players may be placed in the highest level for an event.
- In Doubles and Team events, Master-rated players will play no lower than Level 2.
- In Triples, Master-rated players will play no lower than Level 1. There will be a Master level based on the field.
- Two Master-rated players must play in the highest level for that event.

Cricket Events:

- Any player with a 3.4 MPR or above will be considered a Master-rated player in all events.
- Master-rated players may be placed in the highest level for an event.
- In Doubles, Triples and Team events, Master-rated players will play no lower than Level 2.
- Two Master-rated players must play in the highest level for that event.

Substitutes and Onsite Alternates

Substitutes: The four (4) highest skill ratings will be used when calculating a team skill. It is helpful to use players with similar skills as substitutes. **No players may be added to the tournament after the entry deadline. Only players entered in the tournament are eligible for substitution.**

Onsite Alternates: Only an Operator's league administrator can make player changes onsite. He or she must have stats and a copy of the entry form with them. No entries will be accepted at the tournament. Players must have equal or lesser stats to the person they are replacing to make the change. Masters players can only substitute in Masters events for Singles and Doubles and in the highest division in Mixed Doubles, Triples and Team events.
